“ I struggle to find the words to describe how much your ongoing input means to our family. ”

Community Life Choices offers parents and carers a true alternative when it comes to choosing services for their children. Every aspect of our service is approached from the viewpoint of what is best for the child or young person, rather than what is necessarily best for the Company.

Where others may compromise, Community Life Choices doesn't. If we need to change something, it will be done; if an individual's needs require specialist training, it will be implemented; if an individual's support needs change, they will be reassessed and a new support program devised.

Our key values and objectives:

- Be person centred in everything we do
- Providing bespoke packages of support that meet individual's needs and aspirations
- Promote opportunities for choice and control
- Enable each individual to choose their lifestyle and lead a fulfilling life
- Involve family carers in planning with each individual
- Protect each individual from abuse
- Promote health and well-being
- Work in partnership with agencies to maximise opportunities for each individual we care and support
- Deliver high quality support that meets positive outcomes

We know that your child or young adult has very special needs. Our Personal Assistants are trained to adapt to your child's requirements across a broad range of ages, disabilities and home circumstances.

Our Personal Assistants can cater for many needs and our aim is to ensure each child achieves positive outcomes throughout their unique life.

Our services enable you to remain in control every step of the way. You choose the Personal Assistant that is right for you and your child. You specify the hours and care you need. We'll help make it happen.
